

Technical Requirements

The technical requirements for Project 1 are as follows.

- ☐ Use Pandas to clean and format your data set(s)
 - ☐ Create a Jupyter Notebook describing the **data exploration and cleanup** process
 - ☐ Create a Jupyter Notebook illustrating the **final data analysis**
 - ☐ Use Matplotlib to create a total of 6-8 visualizations of your data (ideally, at least 2 per "question" you ask of your data)
 - ☐ Save PNG images of your visualizations to distribute to the class and instructional team, and for inclusion in your presentation
 - ☐ Optionally, use at least one API, if you can find an API with data pertinent to your primary research questions
 - ☐ Create a write-up summarizing your major findings. This should include a heading for each "question" you asked of your data, and under each heading, a short description of what you found and any relevant plots.
